North Sea shrimps

Crangon crangon

**Winner independently
conducted taste study**

Our new BSCI certified peeling factory in Marocco

As the name suggests, North Sea shrimps are caught close to home. Their salty, slightly sweet flavour makes them the tastiest shrimps. In the Netherlands, this delicacy is known as Dutch shrimps and in Belgium, grey shrimps. In both countries, North Sea shrimps are a popular product, used for classic recipes such as shrimp croquettes and shrimp cocktail. North Sea shrimps are caught and immediately sieved, cooked and cooled on board. The North Sea shrimp is MSC certified since december 2017.
